**Note 25 Fair value of assets and liabilities**

**25.1 Please provide details of the charity's exposure to credit risk (the risk of incurring a loss due to a debtor not paying what is owed) , liquidity risk (the risk of not being able to meet short term financial demands) and market risk (the risk that the value of an investment will fall due to changes in the market) arising from financial instruments to which the charity is exposed at the end of the reporting period and explain how the charity manages those risks.**

No current credit risk, due to the fact that the majority of income comes from donations and grants. No current liquidity risk, as there is more than enough money in the bank to cover obligations, which are managed by the Trustees and Treasurer who only book services/events if there is enough money to pay for them. No market risk, as the organisation has no investments other than cash at the bank/building society standard accounts.

**25.2 Please give details of the amount of change in the fair value of basic financial instruments (debtors, creditors, investments (see section 11, FRS 102 SORP)) measured at fair value through the SoFA that is attributable to changes in credit risk.**

N/A. There has been no change which is attributable to credit risk.
